Advertising

TROW'S Business Directories of Manhattan and the Bronx, City of New York, and Trow's Greater New York Business Directory are two of the best advertising mediums extant.

Why we make the above assertion

1st They are purchased and used by business concerns TO LEARN WHERE AND FROM WHOM ANY LINE OF GOODS CAN BE BOUGHT OR SOLD. THEY EXIST FOR THAT PURPOSE ONLY.

2d Their circulation is world-wide.

3d They are not for a day or a month, but for a year, and frequently for a longer period.

4th The advertising rates, in consideration of their wide circulation and the business they bring, are extremely low.

5th Many of the best known houses in New York have advertised in them continuously for many years, and all of them get good returns for the investment.

FAC-SIMILE LETTERS

MODERN methods of business publicity have developed a system of advertising that has proven more direct, economical and beneficial in producing results than heretofore has been the case, we refer to the fac-simile letter. By this method the advertiser is enabled to call the individual attention of the consumer to his goods, qualities and prices in a direct, concise and comprehensive manner and in a way that is certain to attract attention, and by selecting the class of people most likely to require what he has to sell he gets larger returns than when advertising promiscuously.

Our system of producing fac-simile letters is the best yet devised and cannot be distinguished from genuine typewritten letters.

We are also prepared to furnish lists of all kinds of names compiled from data of recent date, address envelopes, fold, insert, and mail all kinds of mailable matter in a rapid and economical manner.

A letter or telephone call (1100 Orchard) will bring our representative to you prepared to suggest methods and submit prices.

TROW'S Business Directories of Manhattan and the Bronx, City of New York, and Trow's Greater New York Business Directory are two of the best advertising mediums extant.

Why we make the above assertion

1st They are purchased and used by business concerns TO LEARN WHERE AND FROM WHOM ANY LINE OF GOODS CAN BE BOUGHT OR SOLD. THEY EXIST FOR THAT PURPOSE ONLY.

2d Their circulation is world-wide.

3d They are not for a day or a month, but for a year, and frequently for a longer period.

4th The advertising rates, in consideration of their wide circulation and the business they bring, are extremely low.

5th Many of the best known houses in New York have advertised in them continuously for many years, and all of them get good returns for the investment.

Advertising

TROW'S Business Directories of Manhattan and the Bronx, City of New York, and Trow's Greater New York Business Directory are two of the best advertising mediums extant.

Why we make the above assertion

1st They are purchased and used by business concerns TO LEARN WHERE AND FROM WHOM ANY LINE OF GOODS CAN BE BOUGHT OR SOLD. THEY EXIST FOR THAT PURPOSE ONLY.

2d Their circulation is world-wide.

3d They are not for a day or a month, but for a year, and frequently for a longer period.

4th The advertising rates, in consideration of their wide circulation and the business they bring, are extremely low.

5th Many of the best known houses in New York have advertised in them continuously for many years, and all of them get good returns for the investment.

ADVERTISING

Four reasons

why Directories are the *best* advertising media

1 They are not ephemeral like magazines or newspapers. When you buy advertising in a Directory, you are providing for a full year's advertising.

2 The *circulation* of a Directory is not limited to the number of copies issued, but is determined by the unlimited number of persons referring to it.

3 Directory advertising is marvelously cheap. For instance: you can buy a page for from $35 to $80, according to the Directory selected. How much of an ad. could you get in a magazine for *one month*, in a newspaper for *one day*, in a street car for *one minute* for the same amount?

4 A Business Directory is bought by the purchaser because it will tell him where he can buy what he wants and who are in the market for what he has to sell. Could there be any better or more natural medium for advertising?

FAC-SIMILE LETTERS

MODERN methods of business publicity have developed a system of advertising that has proven more direct, economical and beneficial in producing results than heretofore has been the case, we refer to the fac-simile letter. By this method the advertiser is enabled to call the individual attention of the consumer to his goods, qualities and prices in a direct, concise and comprehensive manner and in a way that is certain to attract attention, and by selecting the class of people most likely to require what he has to sell he gets larger returns than when advertising promiscuously.

Our system of producing fac-simile letters is the best yet devised and cannot be distinguished from genuine typewritten letters.

We are also prepared to furnish lists of all kinds of names compiled from data of recent date, address envelopes, fold, insert, and mail all kinds of mailable matter in a rapid and economical manner.

A letter or telephone call (1100 Orchard) will bring our representative to you prepared to suggest methods and submit prices.
